

Pumpkin Carving Template

# Riddick

from "The Chronicles of Riddick"

Design by Melisa Cherney

- Grey areas  Cut out  
Grid areas  Remove pumpkin skin  
Red area  Darken with a black marker - *Do Not Poke Outlines*

**To transfer design:**

1. Tape pattern to pumpkin.
2. Poke holes along the outlines using a pin or poking tool.
3. Remove pattern.
4. Keep the pattern nearby for reference.

**Suggestions for Carving:**

- In general, work the smallest areas first, moving outward from the center. For this pattern:
1. Remove pumpkin skin first.
  2. Carve areas to be removed.
  3. Darken the glasses with a black permanent marker.
